

About

CHRISQUINN

Graphic & Web Designer

With an advertising agency background he desperately tries to shed, Chris has been in the creative space since 2008. The majority of that time working from home, Chris has developed enterprise level creative support for businesses in 30+ countries and is always looking to expand his reach from his home studio. Husband, father, athlete, entrepreneur, outdoorsmen, and traveler, Chris wears many hats but remains client-driven, living by his company mantra: **"Your will. My hands."**
